SYLLABUS – A COURSE DESCRIPTION

I. General informaion

- 1. Course name: Viruses in Biotechnology
- 2. Course code: 01-BTA-VIRBT
- 3. Course type (compulsory or optional): **compulsory**
- 4. Study programme name: Biologia

5. Cycle of studies (1st or 2nd cycle of studies or full master's programme): 2nd cycle of studies

6. Educational profile (general academic profile or practical profile): general academic profile7. Year of studies (if relevant): I

8. Type of classes and number of contact hours (e.g. lectures: 15 hours; practical classes: 30 hours):

lectures: 10 hours laboratory classes: 15 hours conversatorium: 5 hours

9. Number of ECTS credits: 3

10. Name, surname, academic degree/title of the course lecturer/other teaching staff:

dr hab. Justyna Broniarczyk, justekbr@amu.edu.pl

dr hab. Robert Nawrot, nawrot@amu.edu.pl

11. Language of classes: English

12. Online learning - yes (partly - online / fully - online) / no: not available

II. Detailed information

1. Course aim (aims)

Course aim (aims):

1. Familiarize students with safety rules in the laboratory of virology.

2. Familiarize students with the properties of Virus-Like Particles (structure, production and characterization).

- 3. Explain the role of viruses in biological science.
- 4. Discuss the role of Virus-Like Particles in vaccine production.
- 5. Explain the role of viruses as carriers of therapeutic agents and genes.
- 6. Discuss the role of viruses in nanotechnology.

2. Pre-requisites in terms of knowledge, skills and social competences (if relevant)

The students should be familiar with basic virology.

3. Course learning outcomes (EU) in terms of knowledge, skills and social competences and their reference to study programme learning outcomes (EK)

| Course learning outcome symbol (EU) | On successful completion of this course, a student will be able to: | Reference to study programme learning outcomes (EK) |
|---|---|---|
| EU_01 | define and use the safety rules in laboratory of virology | BT_K05 |
| EU_02 | explain Virus-Like Particles (structure, production and characterization) | BT_W01, BT_W02 |
| EU_03 | describe and explain the role of viruses in biological science | BT_W02, BT_W03 |
| EU_04 | characterize the role of Virus-Llike Particles in vaccines production | BT_W01, BT_W06, Bt_U01 |
| EU_05 | explain the role of viruses as carriers of therapeutic agents and genes | BT_W06, BT_U01 |
| EU_06 | explain the role of viruses in nanotechnology | BT_W01, BT_W06 |

4. Learning content with reference to course learning outcomes (EU)

| | Course learning |
|-------------------------|-----------------|
| Course learning content | outcome symbol |
| | (EU) |

| The difference between BSL2 and BSL3 laboratories | EU_01 |
|--|-------|
| The properties of virus like particles (types of VLPs, production platforms) | EU_02 |
| The positive role of viruses in biological science (studies on: viral life cycle, cell biology, antiviral activity of different compounds) | EU_03 |
| The role of virus-like particles in vaccines production | EU_04 |
| Viruses as carriers of therapeutic agents and genes | EU_05 |
| The role of viruses in nanotechnology (viruses as scaffolds and templates for nanomaterials) | EU_06 |

5. Reading list

1. Cann AJ: Principles of Molecular Virology, Elsevier, Amsterdam-Boston-London, 2012

2. Dimmock NJ,Primrose SB: Introduction to Modern Virology, Blackwell Science, Oxford, 1998

3. Fields BN et al.: : Fundamental Virology, Lippincott-Raven, Philadelphia-New York, 1995

4. Flint SJ et al: Principles of Virology, ASM Press, Washington, 2009 III. Additional information

1. Teaching and learning methods and activities to enable students to achieve the intended course learning outcomes (please indicate the appropriate methods and activities with a tick or/and suggest different methods)

| Teaching and learning methods and activities | |
|---|---|
| Lecture with a multimedia presentation | X |
| Interactive lecture | X |
| Problem – based lecture | X |
| Discussions | |
| Text-based work | |
| Case study work | |
| Problem-based learning | |
| Educational simulation/game | |
| Task – solving learning (eg. calculation, artistic, practical tasks) | |
| Experiential work | Х |
| Laboratory work | Х |
| Scientific inquiry method | |
| Workshop method | Х |
| Project work | Х |
| Demonstration and observation | |
| Sound and/or video demonstration | |
| Creative methods (eg. brainstorming, SWOT analysis, decision tree method, snowball technique, concept maps) | |
| Group work | X |

2. Assessment methods to test if learning outcomes have been achieved (please indicate with a tick the appropriate methods for each LO or/and suggest different methods)

| Accessment methods | Course learning outcome symbol | | | | | | |
|--------------------|--------------------------------|------|------|------|------|------|--|
| Assessment methods | | EU_2 | EU_3 | EU_4 | EU_5 | EU_6 | |
| Written exam | | Х | Х | Х | Х | Х | |
| Oral exam | | | | | | | |

| Open book exam | | | | | | |
|--|---|---|---|---|---|---|
| Written test | | | | | | |
| Oral test | | | | | | |
| Multiple choice test | | Х | Х | Х | Х | Х |
| Project | | | | | | |
| Essay | | | | | | |
| Report | | Х | Х | Х | Х | Х |
| Individual presentation | | Х | X | Х | Х | Х |
| Practical exam (performance observation) | Х | | | | | |
| Portfolio | | | | | | |
| Discussion activity | | Х | X | Х | Х | X |

3. Student workload and ECTS credits

| Activity types | Mean number of hours spent on each activity type |
|--|--|
| Contact hours with the teacher as specified in the study programme | 30 |
| Preparation for classes | 10 |
| Reading for classes | 15 |
| Essay / report / presentation / demonstration preparation, etc. | 15 |
| Project preparation | |
| Term paper preparation | |
| Exam preparation | 20 |
| Total hours | 90 |
| Total ECTS credits for the course | 3 |

4. Assessment criteria according to AMU in Poznan grade system

Very good (bdb; 5,0): Clear attainment of the course outcomes, showing complete and comprehensive understanding of the course content, with development of relevant skills and intellectual initiative to an extremely high level.

Good plus (+db; 4,5): Substantial attainment of the course outcomes, showing a high level of understanding of the course content, with development of relevant skills and intellectual initiative to a high level.

Good (db; 4,0): Sound attainment of the course outcomes, showing good understanding of the course content, with development of relevant skills and intellectual initiative to good level. Satisfactory plus (+dst; 3,5): Some attainment of the course outcomes, showing some understanding of the course content, with development of relevant skills and intellectual initiative to rather good level.

Satisfactory (dst; 3,0): Weak attainment of the course outcomes, showing acceptable understanding of the course content, with development of relevant skills and intellectual initiative to acceptable level.

Unsatisfactory (ndst; 2,0): Very weak attainment of the course outcomes, showing not passable understanding of the course content, with development of relevant skills and intellectual initiative to not acceptable level.
